**Orange County CSI Chapter
September Meeting**

Program: Flight 93 National Memorial

**Speaker: Paul Murdoch
President, Paul Murdoch Architects**

In 2005, **Paul Murdoch Architects**, in association with Nelson Byrd Woltz Landscape Architects, was selected from 1,100 entries in an international competition to design the Flight 93 National Memorial, a 2,200-acre national park near Shanksville, Pennsylvania. This memorial commemorates the forty passengers and crewmembers that sacrificed their lives on September 11, 2001 thwarting a terrorist attack on the US Capitol. The presentation will focus on the design and implementation of the multi-phased project over the last 13 years, including current work on the Tower of Voices, a 93-foot tall tower featuring 40 wind activated chimes that will be dedicated on September 9, 2018.

Paul Murdoch is president of Paul Murdoch Architects, the award-winning firm he founded in 1991. The firm is located in Los Angeles, where Paul has also worked with AIA Gold Medalists Arthur Erickson and Charles Moore. Paul has over thirty years of experience exploring sustainable architecture for cultural, higher education and public transportation clients.

Paul was born in Philadelphia, PA. He graduated from UCLA with a Master of Architecture and from the University of Virginia with a Bachelor of Science in Architecture. Paul has taught architectural design and theory at USC's School of Architecture and has been a guest critic at UCLA and Sci-Arc. He is a registered architect, a member of the American Institute of Architects and a LEED Accredited Professional with the U.S. Green Building Council. In 2012, the American Institute of Architects honored Paul and his wife Milena as Architects of Healing for their role as designers of the memorial.
